

LedgerStash: The Blue Ocean for Solo CPAs

The Private Vault for Your Boutique Accounting Firm

Stop chasing tax docs over email. Give your clients a secure, white-labeled LedgerStash to exchange sensitive documents, track PBC lists, and build professional trust.

IRS 4557

FTC SAFEGUARDS

GLBA READY

The "Enterprise Bloat" Problem

Built for Teams, Not Solos

SmartVault and TaxDome are designed for firms with 10+ employees. Solo CPAs pay for complex CRM pipelines and team chats they never use.

Complex Onboarding

TaxDome requires 6-8 weeks of dedicated onboarding. Solo practitioners need a tool they can set up in minutes, not months.

Hidden Minimums

Enterprise platforms force solo CPAs into 3-user minimums, tripling your software costs from day one.

LedgerStash vs. The Competition

LedgerStash

\$29

PER MONTH

SmartVault

\$210

PER MONTH MIN.

TaxDome

\$800

UPFRONT ONLY*

Save \$2,172 Per Year

**TaxDome requires a mandatory yearly subscription.*

Frictionless Client Experience

No Passwords, No Accounts

High-net-worth clients hate creating accounts. LedgerStash offers a password-free vault experience — simple invites and instant access for your clients via secure magic links.

Your Brand, Not Ours

Build professional trust with full white-labeling. Your clients see your firm's identity — logo, colors, and branding — on every interaction.

Mobile-First Design

Clients can upload documents directly from their phone's camera or files, making document collection effortless even on the go.

PBC List Management

Accounting-Specific Language

Most portals use generic "File Request" tools. LedgerStash built "PBC List Management" directly into the platform, speaking the language of accountants.

Automated Reminders

Automated reminders chase missing documents for you, so you never have to manually follow up during busy season.

Audit-Ready Export

Download organized document packages with full activity history, timestamps, and IP tracking for every file.

Security and Compliance

IRS Publication 4557

Fully compliant with IRS requirements for safeguarding taxpayer data and secure document storage.

FTC Safeguards & GLBA

Adheres to the Gramm-Leach-Bliley Act and FTC rules for protecting non-public personal information.

Bank-Grade Encryption

All data is encrypted at rest and in transit using AES-256 standards, ensuring your clients' data is always protected.

YOUR WINNING HAND

SIMPLICITY

Set up in minutes. No training required. No software chaos.

AFFORDABILITY

5-8x cost advantage over enterprise competitors.

PURPOSE-BUILT

Designed specifically for the "small but mighty" solo CPA.
